

TCW Training Brochure

Practical finance skills with a future-ready edge: sustainability, ethical AI, and real-world confidence.

Welcome to TCW

At TCW, we believe knowledge is the fastest route to confidence and better decisions. Our training programmes are designed for busy teams who want practical skills they can use immediately — with the clarity, calm and professionalism you would expect from a tax-aware firm.

Our training programmes

- Bookkeeping training: from fundamentals to advanced record-keeping
- VAT training: understanding VAT rules and submissions
- Payroll training: practical processing and compliance
- Business software training: boost efficiency with digital tools
- Sustainability in business: embed eco-conscious practice into reporting and decisions
- AI for finance and operations: ethical AI literacy for modern teams

Why choose TCW

Hands-on, human, and built for the real world

- Experienced instructors with real practice and payroll knowledge
- Flexible delivery: in-person or online
- Practical learning: activities, mini case studies, and usable templates
- Future-focused: sustainability, ethical AI, and skill development

“The training helped us get compliant and become more confident with digital tools and sustainability.” — Client feedback

Training that sticks

Invest in knowledge. Invest in your future.

How we deliver

We keep training practical and relevant.

Sessions are designed around your context, your systems, and the reality of day-to-day finance work.

Online (live)

- Interactive sessions on Teams/Zoom
- Templates and follow-up resources
- Ideal for distributed teams

In-person

- Workshop-style delivery
- Team-based scenarios and practice
- Best for high-impact capability days
